### MINUTES OF WPCA SPECIAL MEETING HELD ON DECEMBER 30, 2010

### REQUEST TO PURCHASE (3) THREE REPLACEMENT LOWER MIXER BLADES FOR THE PHILADELPHIA EQUALIZATION TANK MIXIERS

Mr. Ignatowicz explained that this past summer, when repairs were made to the 50,000 gallon equalization tank (EQ), it was discovered that the three lower mixer blades on the extended shafts are all but gone and need to be replaced. The cost for the hardware and the blades will be \$3283 each, Mr. Ignatowicz said. Mr. Weissberger asked if it has been confirmed that the price has remained the same since quoted on September 2, 2010 and if there is any reason to believe that the price has changed. Mr. Weaver said that generally, price quotes to municipalities, are extended for six months. Mr. Ignatowicz said that if the price is significantly higher, then the blades will not be purchased without coming back to the WPCA with a new quote. Mr. Weissberger asked for the number of quotes obtained and Mr. Bevins explained that Philadelphia Mixing Solutions, Ltd. is a sole supplier of the hardware. Mr. Weaver, seconded by Mr. Weissberger, made a motion that the Water Pollution Control Authority authorizes the purchase of three (3) sets of lower impeller blades and hardware from Philadelphia Mixing Solutions, Ltd, as shown as Option #3 on a proposal dated September 2, 2010 and that said purchase be made from the FY 2010-2011 wastewater treatment plant operating budget. After discussion, a friendly amendment "at a cost not to exceed \$9849 plus freight" was made by Mr. Weaver. The motion passed unanimously (3-0).
